

Creating an Account for CoronaPlaza.Life and notes about the program and about Katarina's class Summer 2020

1st COMMENT:

"So I went to CoronaPlaza.Life Then I clicked on 'webinars'. I looked to see what was there. I saw your link. I clicked on that link. It said 'more', if you want to know more. I clicked on 'more'. It is a green button. That let me register for the next segment. You have to keep going after you click 'more'. You have to scroll down to the bottom and I think at that point it says 'register'.

You click on the green button that says 'register' and that registers you but does not give you the zoom conference yet. On the day of, an hour before the program, you go back to that same site. It will show that you registered for this zoom call and tell you that in an hour - or whatever amount of time it is - you will get information about joining zoom and it will be a green type button that you click on to get to the zoom conference.

That is how I got here."

2nd COMMENT (Anna):

"It is coronaplaza.life - 'LIFE' is instead of 'com' or 'net' or 'org' or something like that. It is a new ending.

If you set up an ACCOUNT in the first place, when you go to coronaplaza.life you can go into your account before you connect with the webinars and then all the webinars you have signed up for are collected inside your account.

So on the day, all you have to do is go into your account and click on the GREEN ZOOM BUTTON at the bottom of the webinar that is listed there." (emphasis added)

"So it is TWO buttons: One to get into your ACCOUNT. And one to get into your WEBINARS."

3rd COMMENT REFERRING TO 1st COMMENT:

"That has not always worked for me. Sometimes it is not there. So if you do that - which is easier - but you do not see it there then you could use mine as a back-up."

4th COMMENT

"It is tricky. It is definitely tricky. Another thing that happens to me is that I when originally sign up for the webinar, coronaplaza.life sends me an email with the zoom link. You can get into the webinar like that."

"I do not like that way. It is easier for me to go through my account on coronaplaza.life. I did have it happen to me twice a couple of weeks ago though, where I signed up and then when I went to my account it was not there.

That was during a big glitch throughout the system that wiped out all the webinars people had signed up for, so we had to sign up twice and we did not know that had happened until after the fact."

5th COMMENT

"I never get an email notice about it."

"Katarina, I get your notes all the time. But I do not get anything from coronaplaza.life."

6th COMMENT (Anna):

"Interesting. And I always get one and I ignore them and delete them because I like to get on the other way."

NEW ARRIVAL:

" Hello ... Nice to see you here. And hello Lori and Anna and Katarina. What is this group?"

ANNA

"Well, coronaplaza.life is a project that a group of us set up that is part of Focusing Initiatives International. We set it up really fast. In just a few weeks we got it up and running at the beginning of the virus as a place where people could come and offer each other webinars and have a place where they could come and listen and talk about things that were troubling them.

So if you go to the site you will see there are a whole lot of different webinars.

I have a listening space on some Wednesday mornings and every Saturday at noon where I am just there to listen to people. We all listen to each other and reflect each other and it is just a place to come and not be judged and talk about whatever you want to talk about."

ANNA

"Okay, so this particular class is one of those webinars that is offered on coronaplaza.life. I asked Katarina to do it because I had been to another small workshop of hers that was wonderful. I just really liked the touching and stuff because I am all isolated and I do not get touched much. So from this I get touching and I get movement and it is just really lovely. So I asked Katarina to do a class in our coronaplaza.life place."

MORE NOTES ON CREATING AN ACCOUNT

<https://CoronaPlaza.Life>

Create an Account and Login

The login page for Corona Plaza Life offers authentication with an account from Ama, Google, or Facebook.

If you prefer not to use that option, read the Tips on the left half of the login page.

As seen in the excerpt below, you will find a link to a registration page at the end of the second paragraph.

The text below is copied from the CoronaPlaza.Life login page.

"Tips

You can see the "Connect with" in the next box. You can use them to get an account on CoronaPlaza.Life. We will connect with the service related to button you are going to click on, to retrieve your email address, your first name, your last name. We will not share any of your data (what you do on our website) with any of them.

If you do not have an account on either of those service, you can still proceed and manually create one. You have just to click it here:
