DEEP VISION STATEMENT

~ THE PURPOSE OF DUNBAR EARTHQUAKE AND EMERGENCY PREPAREDNESS (DEEP)

The DEEP program is a citizen's grass roots effort to ensure our community is able to take care of ourselves after a disaster. DEEP envisions organizing and planning block-by-block, bringing neighbours together to build mutual trust and awareness of each other's skills and special needs.

Some of the actions envisioned include building on Block Watch activities like block parties, adding in skill development, training and mutual support for undertaking basic preparation. We'll be using the "Map your Neighbourhood" [MYN](#) program as an initial step in organizing individual blocks.

DEEP will also attend to community wide issues and resources including working with the City services and local schools and churches to identify places of refuge, provide communication links, emergency medical support, food and security until city and provincial services can be restored.

– Ann Pacey, February 2013

登巴社区地震及紧急事件的预防准备（以下简称 DEEP）

DEEP项目是关于市民在灾难之后如何确保在社区范围内更好地保护自己。DEEP的构想是在街区组织邻里建立起相互信任和对彼此一些特殊技能和需求的了解。

其中一部分的设想是包括建立邻里观察活动，例如邻里聚会，可以增进技能提升，训练相互支持，做好最基本准备。

我们还将 [MYN](#) 项目作为组织独立街区的第一步。

DEEP广泛参与到社区各个组织，例如与市政机构，学校和教堂合作，标示出避难场所，提供联系方式，紧急医疗援助以及食品和安全保卫，直到省市政府恢复正常秩序。

EMERGENCY GUIDE...

[Here's a Planning Calendar to keep you out of trouble in 2022.'](#)

Your *Emergency Plan Guide*

A direct link to 12 months' worth of preparedness ideas from Virginia, shared with us by Ann Pacey:
<https://emergencyplanguide.org/planning-calendar-for-2022-part-1/>

Virginia writes: "Actually, this is Part 1 of a 2 Part series. Part 1 is a list of ideas and themes to get you started on a **year's worth of activities and meetings**. Part 2, coming next week, will be some ideas about how to pick the very best candidates for a **powerful and effective team**. (This Advisory may be somewhat controversial . . .!)

So please print out the Advisory and/or save it to where you can find it. Let's get ready for the coming year!" — Virginia@emergencyplanguide.org Plan Guide 4790 Irvine Blvd., Suite 105 Irvine CA 92620 USA

IN THE NEWS ...

*An interesting article in The Guardian, British newspaper, about BC and floods and earthquakes. 'Basically - the province is unprepared!!' shared by Timothy Beale
[The Big One: Canada floods show British Columbia is not ready for a powerful earthquake | Earthquakes | The Guardian](#)

"As the province rebuilds after the atmospheric river, experts hope for a heightened focus on future quake hazards."

* The Vancouver Sun notes the increasing dynamic range of temperatures in BC - with Lytton setting a record in 2021, and the city burnt down the day after:
